WORK EXPERIENCE

Senior Consultant - Frontend
ThoughtWorks

02/2024 - Present   *Bengaluru, India*

We are a global technology consultancy that delivers extraordinary impact by blending design, engineering and AI expertise

Achievements/Tasks

- Contributed to multiple enterprise-grade platforms from scratch, taking ownership across feature design, implementation, testing, and stabilization.
- Consistently shipped features under tight timelines with minimal defects and smooth production rollout.
- **Improved front-end code quality metrics** from $30\% \rightarrow 90\%$ by enforcing best practices, refactoring legacy modules, and strengthening code quality gates.
- **Optimized CI/CD performance** by reducing GitHub Actions code coverage time from $20\ min \rightarrow 6\ min$, improving developer velocity and deployment cadence.

Software Engineer - Frontend
Tekion Corp Private Limited

06/2022 - 09/2023   *Chennai, India*

Tekion is developing applications on the cloud starting with the automotive retail industry.

Achievements/Tasks

- Managed and assumed ownership of the Myaccount and appointment modules within diverse automotive consumer platform programs as a pivotal member of the Automotive Enterprise Cloud.
- Proficient in implementing a micro-frontend architecture utilizing SPA and webcomponents.
- Actively reviewing the team's pull request (PR) for improvements, with a focus on maintaining high standards of code quality.

Frontend Engineer
Doodleblue Innovations Private Limited

09/2018 - 06/2022   *Chennai, India*

doodleblue provides the best UI/UX designing, mobile engineering, web design, and digital transformation solutions.

Achievements/Tasks

- Write well designed, testable, efficient code by using best software development practices.
- Lead a team of 5 to develop the TNRTP enterprise application within the impressive tight deadline.
- Actively contributed to feature planning, UI/UX discussions, and implementation.
